## FROM NOW ON

Lamborghini has unveiled Revuelto, the first HPEV (High Performance Electrified Vehicle) hybrid super sports car before the 60th anniversary of the marque. With the Revuelto, Lamborghini has established a new benchmark in terms of performance, on-board technology and driving pleasure, thanks also to a powertrain that delivers more than 1000CV in total, combining the power of a brand new 12-cylinder internal combustion engine with three high density electric motors and a ground-breaking transversal dual clutch e-gearbox.
