DB12 VOLANTE

Your Personal Specification

An icon risen from an icon. The latest landmark in a seven-decade lineage of legend. Uprooting and reinventing the category we first coined over 75 years ago. A blood-stirringly beautiful monument to modernity. Born and relentlessly reborn to race hearts, level mountains, shrink continents and eviscerate every benchmark that's gone before. Pulsing with new technology that places the driver in a seat of new perfection. Redesigning what it means to be a 'tourer'. From its inside, out. This is no mere GT. This is fiercer. This is purer. This is sharper. This is bolder. This is finer. This is DB12. The world's first super tourer.

POWER	680	PS / 671bhp at 6000rpm
TOP SPEED	202	mph (325km/h)
ACCELERATION	3.7	s 0-62mph (0-100km/h)

DB12 VOLANTE

Exterior

DB12, integrates 75 years of DB heritage and segment defining proportions with a modern and assertive road presence worthy of the world's first super tourer. Integrating a muscular body design character to signify the dynamics and power that lays beneath.

Utilising technical requirements to support design proportions allows for performance to meet beauty, like bringing the front grille more vertical increases cooling whilst bringing an assertive presence to the new design.

Interior

The interior design focuses on a driver-centric cockpit, seamlessly integrating innovative technologies with luxury craftsmanship and materials. The new design character introduces horizontal surfaces, blending with the horizon, promoting a sensation of the vehicle being at one with its environment. Occupants sit below the shoulder line with a high centre console ensuring engagement with the luxurious cockpit. The straight lines are softened with elegant cabin jewellery and distinctive trim details. Driver-centric controls are ergonomically placed, ensuring maximum driver connection. Offering a combination of contemporary display screens and interactive analogue switches, the cabin provides the optimum balance.
